

Capital Works Program 2021-22

Overview

The 2021-22 Capital Budget continues to focus on the renewal of infrastructure. The Council has in excess of \$600m (Current Replacement Values) of infrastructure assets that it manages, to ensure that our current and future communities have access to the ongoing services these assets provide.

This year our capital works program will include:

- **\$11,451m** Capital Renewal
- **\$11,823m** in Strategic Initiatives for capital expenditure on new or upgraded assets

Strategic Initiatives (new and upgraded capital)

Within our *Annual Business Plan 2021-22*, we have identified specific Strategic initiatives which are specially funded and prioritised activities, projects and programs of work that are planned over the next three years. These generally relate to investment in upgrading or purchasing new assets and infrastructure.

Capital Renewal

The capital renewal relates to the replacement and/or maintenance works as set out in our *Asset Management Plans*.
