## FOOD SCRAPS GO IN THE GREEN FOGO BIN

Along with your garden organics, remember to include coffee grounds, meat and fish bones, citrus and onion peels, mouldy foods (depackaged), tissues and paper towels, egg cartons, pizza boxes and other compostable food serving ware, cold ash, and pet waste.

These materials are valuable resources, and when you place them in your green bin, compost is created and sent to farms, vineyards and orchards. This helps South Australia's farmers to grow the high quality produce this state is famous for.
